RANSOMWARE

Ransomware is a type of malicious software, or malware, that will block access to your data. Your data is locked down via encryption. The only way to unlock your data is with the encryption key. To obtain this key, you will be forced to pay a ransom.

IF YOUR DATA IS ENCRYPTED DUE TO RANSOMWARE, THEY OWN YOUR DATA, NOT YOU!

IF YOU DO NOT HAVE CYBER SECURITY INSURANCE, CALL YOUR INSURANCE PROVIDER AS SOON AS THIS MEETING IS OVER

RANSOMWARE

WHY SHOULD YOU BE CONCERNED?

As a small to medium business, cyber criminals are specifically targeting you and your data for the first time in history.

IF YOU HAVE DATA, YOU ARE A TARGET!
