

## Important Legislative Update - ERBRF Senate Bill 3120

Due to intense negotiations regarding various funding measures, numerous bills died on the calendar last night and did not meet Monday's deadline. Of those various bills was **Senate Bill 3120**.

This measure had a line-item funding for the Emergency Road and Bridge Repair (ERBR) Fund at \$100 million dollars. It is rumored that the legislature will extend the session to continue to work those various funding measures.

**PLEASE** contact your local legislative delegation and request that **Senate Bill 3120** be brought back and passed with \$100 million dollars or more funding for the Emergency Road and Bridge Repair Fund.
